

Documento de Arquitetura de Software

Autores: Álefe Lucas, Breno Aroeira Cosenza, Henrique Schiess Pertussati, Luana Duarte Santana Farias e Lucas de Souza Moraes.

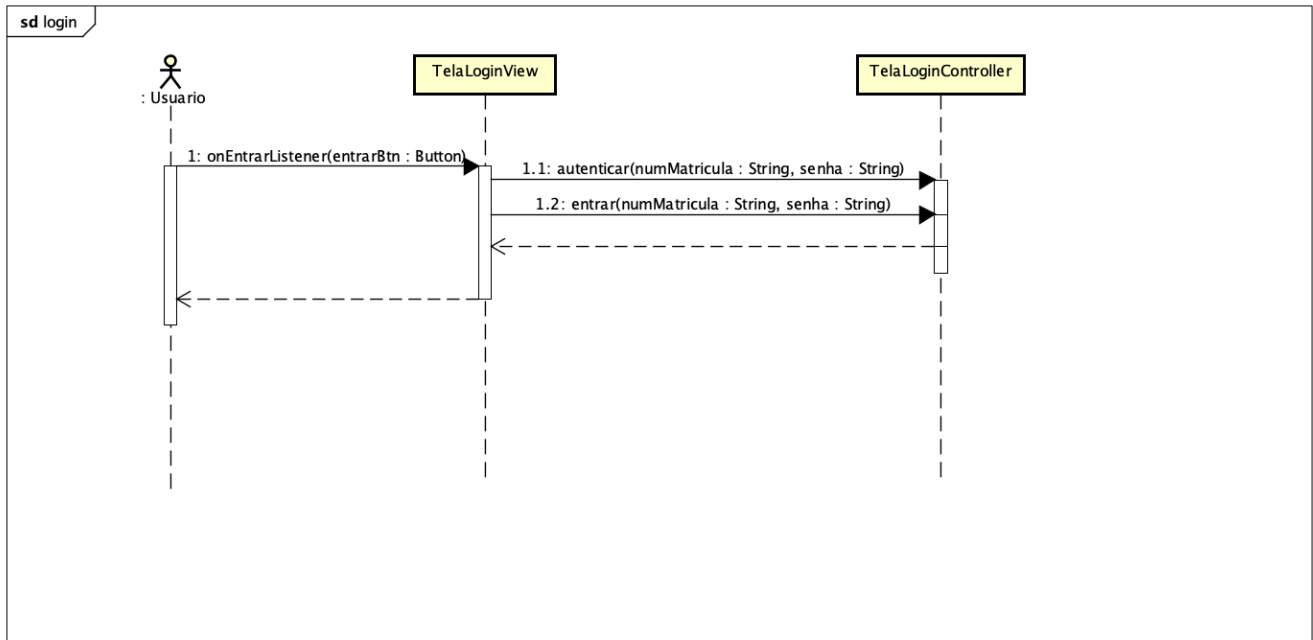

1. Introdução

Este documento fornece uma visão geral arquitetura abrangente do sistema, usando vários meios de arquitetura de software diferentes para representar diversos aspectos do sistema. Destina-se a capturar e transmitir as decisões arquiteturais significativas que foram tomadas no sistema.

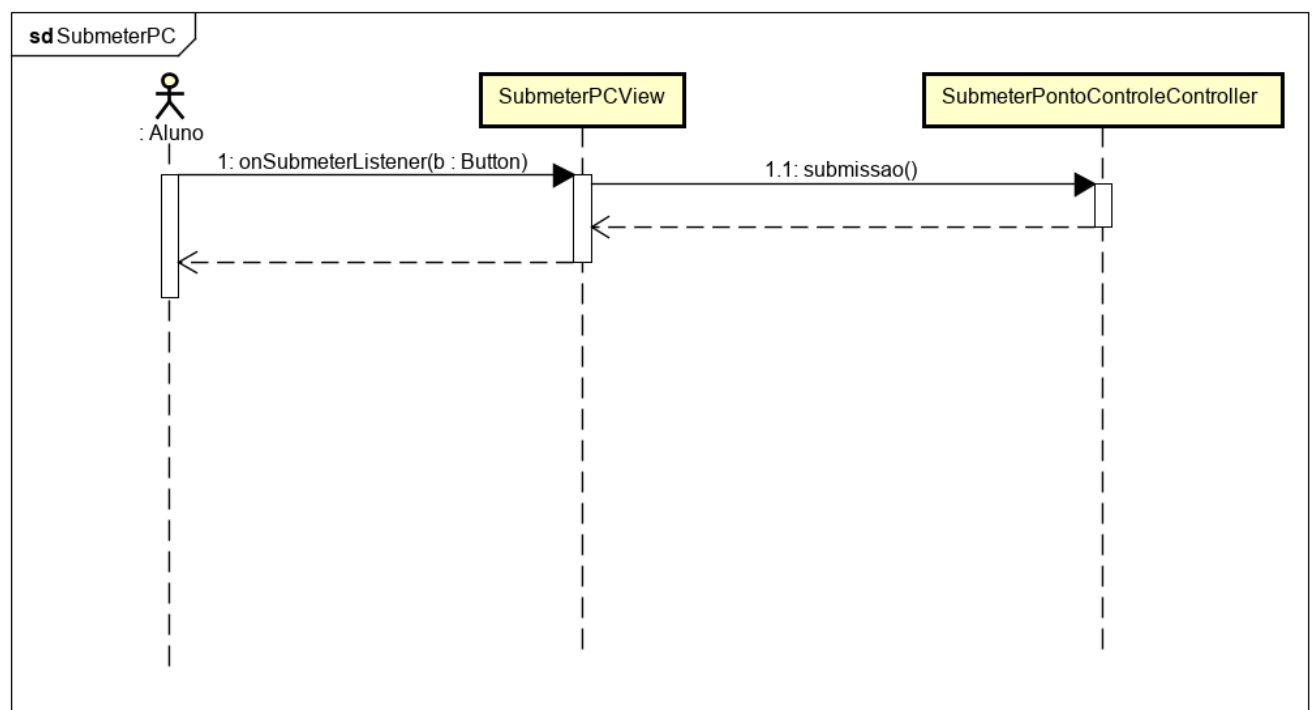

É de se notar que o sistema foi remodelado para a utilização de javascript, como requisito não funcional de plataforma web.
